

GFBR 2025 application form

PRESENTER

Thank you for your interest in attending the Global Forum on Bioethics in Research (GFBR) on the topic '**Reimagining research partnerships: equity, power and resilience**'. The Forum will take place in Accra, Ghana. The provisional Forum dates are **18 & 19 November 2025**. The dates are subject to confirmation.

Complete this form if you are applying to present at the Forum.

If you would like to attend as a participant, please complete the participant application form, which is available on the GFBR website (gfbr.global). Also see the website for the full call for applications and a background paper and video on the Forum topic.

This form contains 7 sections:

1. Data protection consent
2. Your experience and motivation to attend GFBR
3. Your case study or paper proposal, which should use the following structure:
 - Brief description of context (350 words)
 - Ethical analysis or discussion of governance/policy issues (700 words)
 - Conclusions and recommendations (250 words)
4. Personal details (name, contact details etc.)
5. Work and training (your current and past jobs etc.)
6. Funding request
7. Personal references

This form **does not** allow you to save partial responses and re-open the form later on. We therefore strongly recommend you **prepare and save your written responses to Sections 2 and 3 off-line**, and copy them into this form when finalised.

Please ensure you include all the mandatory information, as incomplete applications will not be considered.

Use of Generative AI tools: What makes a successful application is the originality of the ideas and the personalized statements for what it would mean for you to attend. If you use AI for your application (e.g., for language editing, translation), please ensure your submission retains what makes you personally stand out. If your application reads like a generic response that would come from inputting the application questions into a Generative AI tool, you are not likely to be selected for participation in GFBR. You will be asked to declare the use of AI tools.

Submission deadline is **Sunday 25 May 11.59pm CEST/Geneva**, when this form **will close automatically**. Please ensure you have **submitted** your application before the deadline. Applications that are in progress but not submitted by the deadline will not be considered. We recommend you review this form well in advance of the deadline to see what is required.

* Required

Data protection consent

I hereby confirm my consent to the World Health Organization (WHO) collecting and processing my personal data for the purposes of the forthcoming GFBR, including determining the suitability and eligibility of my application to attend GFBR and/or to be a speaker/member of a panel at the Forum, registration and managing attendance, making logistical arrangements (including travel and accommodation arrangements), event follow-up, preparing statistics of global event participation by region, and sending follow-up materials to participants.

In addition, I consent to WHO collecting and processing my personal data for the following specific purposes:

- For the purposes of the discussion groups that will meet during the two days of the Forum, the name, institute and country of residence of group members will be shared with the discussion group chairs (members of the Planning and Steering Committee) in advance of the Forum.
- The personal data of presenters will be shared with the member of the Planning Committee, who has been delegated to mentor them to develop their written paper and presentation. The final papers and presentations (which contain name, institute, country) are shared with all Forum attendees.
- For the purpose of oversight, the GFBR Steering Committee will receive a summary list of attendees (name, institute, country, area of expertise and career stage).

The names and affiliations of Steering and Planning Committee members are available at: gfbr.global/about-the-gfbr

*WHO's personal data protection framework includes the WHO Privacy Policy available at <https://www.who.int/about/who-we-are/privacy-policy> and the UN Personal Data Protection and Privacy Principles, which are available at the following link: <https://archives.un.org/sites/archives.un.org/files/un-principles-on-personal-data-protection-privacy-hlcm-2018.pdf>

I understand that I have the right, as data subject, to access data relating to me, to be informed about the existence and the extent of data processing, to rectify incorrect personal data, to restrict the data processing and to oppose further processing on serious and legitimate grounds. I can exercise these rights by contacting the person in charge of this processing operation (gfbr@who.int).

Please type your name to confirm your consent. *

Your experience and motivation to attend GFBR

This section is about you and what you can contribute to GFBR. We want to hear about your experience in relation to research ethics and the topic and to understand how attending GFBR will benefit you professionally. **Your responses should not exceed the lengths indicated.**

Last year, only 1 in 5 applicants were selected to attend GFBR. What makes a successful application is one that reflects your own experiences and knowledge.

At the end of this section you will be asked to declare whether you have used Generative AI tools when completing your application.

What prior experience do you have in the field of research ethics? *

- ☐ Formal qualification (e.g. as part of a bioethics degree)
- ☐ Training course
- ☐ Member of a research ethics committee
- ☐ Attended workshop(s) or conference(s)
- ☐ None
- ☐ Other, please give details below

Please provide further details for every option you selected in the question above. **(200 words maximum)**

Enter your answer

What experience do you have specifically in the GFBR topic 'Reimagining research partnerships: equity, power and resilience'

*

- ☐ Been part of a research partnership
- ☐ Published on the topic
- ☐ Served on a committee that has considered the topic
- ☐ Written or been involved in formulating policies or guidance related to equitable research partnerships
- ☐ Written or been involved in the creation of toolkits related to equitable research partnerships
- ☐ Other, please give details below
- ☐ None

Please provide further details for every option you selected in the question above. **(200 words maximum)**

Enter your answer

How do you see your participation in GFBR contributing to your career development and/or work on this topic? (150 words maximum)

Enter your answer

What would you uniquely contribute to the Forum as a participant? (200 words maximum) *

Enter your answer

How would you disseminate the meeting outcomes to your institution and local/regional partners? Please be **specific and realistic**. (200 words maximum) *

Enter your answer

Have you **previously attended GFBR**? *

☐ Yes

☐ No

If yes, **what have you done with the information and learning** (e.g. presented the GFBR findings at your institution, changed practice or policy, wrote a paper, maintained new collaboration(s) etc.). GFBR wants to reach new colleagues and give an opportunity to people who have not previously attended. In this context, **please explain why you should be selected again and how attending this year will build on your previous attendance**. (200 words maximum)

Enter your answer

Have you used Generative AI tools(s) when completing this application form and/or in writing your case study or paper proposal? *

☐ Yes

☐ No

If yes, please explain the purpose(s) for which you used Generative AI tools (e.g. translation, ideas development for case study etc.)

Enter your answer

Your case study or paper proposal

The GFBR organisers are looking for case studies and papers relevant to the GFBR topic: 'Reimagining research partnerships: equity, power and resilience'.

We are interested in receiving:

1. Real-life case studies of research partnerships that deepen understanding of ethical challenges, demonstrate the development of good practices and/or share experiences of using experimental approaches to research partnership. **Cases that only state ethical challenges encountered in research partnerships will be received with lower priority**, as these are already well documented in the literature. Case studies should move the discussion forward.

2. Conceptual and normative papers that provide in-depth ethical analysis related to the topic.

3. Papers that address governance or policy issues that relate to the topic (e.g., focusing on institutional, national, regional or international regulation, guidelines, policy, principles or issues associated with research ethics review or other governance bodies, mechanisms or tools).

Proposals should be clearly **articulated in English and respect the specified word limits**. Please complete all of the following sections. Partially completed proposals will not be considered.

Please indicate the type of proposal you are submitting

- ☐ Case study
- ☐ Conceptual and/or normative
- ☐ Governance and/or policy

Having read the GFBR background paper, please **indicated which sub-theme your case study or paper most closely fits in and explain why below**. If your case or paper addresses a different sub-theme select 'Other'. *

- ☐ Geography and terminology
- ☐ Economics and politics
- ☐ Responsibility and accountability
- ☐ Emergencies
- ☐ Futures
- ☐ Other, please give details below

Please explain why and, where possible, relate your answer to your own experience **(250 words maximum)** *

Enter your answer

Title of case study or paper *

Enter your answer

Which **region** is the focus of your case study or paper? (check all the apply)

Note: We are using World Health Organization regions. You can check a country's region here: www.who.int/countries

*

- ☐ African
- ☐ Eastern Mediterranean
- ☐ Europe
- ☐ Americas
- ☐ South-East Asia
- ☐ Western Pacific

Brief description to help the reader understand the **context (350 words maximum)**

For example, **case studies that focus on research partnerships** should describe the nature and aims of the research partnerships, where the research was conducted etc. **Papers that focus on governance issues** should describe what aspect(s) you are addressing (e.g. regulation, guidance, policy issue, toolkits, ethics review etc.) and its scope (national/regional/international). **Conceptual and normative paper** should provide an introduction to the analysis.

*

Enter your answer

Ethical analysis or discussion of governance/policy issues (700 words maximum - see themes and questions in the call for application)

PLEASE NOTE THERE IS A **4,000 CHARACTER LIMIT** (INCLUDING SPACES) ON RESPONSES IN MICROSOFT FORMS. IF YOUR COMMENTARY EXCEEDS THIS LIMIT PLEASE CONTINUE YOUR DESCRIPTION IN THE NEXT PART. *

Enter your answer

Ethical analysis or discussion of governance/policy issues (continued, if required)

Enter your answer

Conclusions and two recommendations for how to improve the ethics of, and ethical approaches to, research partnerships **(250 words maximum)**

Note: We ask for recommendations because we are interested to hear about your practical suggestions based on your experience. You don't need to provide recommendations if you are submitting a conceptual or normative analysis that does not lend itself to recommendations. *

Enter your answer

References in Vancouver style (optional)

Enter your answer

List your co-author(s), if you have any, and their affiliations

NOTE: If your co-author(s) would like to attend GFBR, they will need to submit a separate application as a participant.
